GUY LAMARRE
PRIMARY EXAMINER

DETAILED ACTION

Claims 35 and 37-42 are present for examination. Previously indicated as allowable claim 37 that is now canceled has been moved into the independent claim 35.

Priority

Acknowledgement is made that the application is claiming priority to the date 03/27/1997 from a provisional application, 60041729 as indicated within the Specification.

Drawings

The drawings are accepted as was indicated within the prior examination of the instant application.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lawrence J. Bassuk on 3/1/2007.

The application has been amended as follows:

Within claim 35, in limitation "H" of the claim the wording "the capture store memory" is replaced with "the update memory."

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Claims 35 and 37-42 are allowable over the prior art because the present invention pertains to an integrated circuit comprising: a substrate, pads; functional circuits, output buffer circuitry, test access port circuitry, scan cells, and specifically scannable switch circuitry selectively connecting a buffer lead to a test lead, the scannable switch circuitry includes: a multiplexer, which had an output connected to the input of a capture-shift memory, which has an output connected to the input of an update memory, which has an output connected to a switch, the switch being connected in series between a buffer lead and a test lead, the multiplexer having an input connected to the test data input lead and the output of the update memory being connected to a test data output lead, there being one scannable switch circuitry selectively connecting one buffer lead to one test lead which is not found, taught, or suggested in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
